Experience

Software Focus Group Lead
NIE IEEE Student Branch, NIE Mysore

July 2024 – July 2025

- Led technical initiatives and organized workshops focused on software technologies.
- Mentored students in machine learning and software development concepts.
- Collaborated with team members to plan and execute technical events and sessions.

Projects

- **File Upload and Sharing Web App** — *React, Spring Boot, MongoDB, Clerk Authentication* — **GitHub**
 - Developed to make uploading, managing, and sharing files online seamless and secure for users.
 - Built a responsive React frontend with Tailwind CSS for a clean, intuitive user interface.
 - Implemented a Spring Boot backend with MongoDB for efficient file storage, retrieval, and metadata handling.
 - Integrated Clerk Authentication to handle secure user sign-up, login, and access control.
 - Enabled direct file sharing with link generation and permission management for collaborative use.
- **LeetCode POTD AutoSolver** — *Selenium, BeautifulSoup, Requests, ChromeDriver* — **GitHub POW**
 - Created as a satire to mock the streak-obsessed culture on coding platforms by automating the entire LeetCode Problem of the Day workflow.
 - Automates login, fetches the daily problem, retrieves editorial code, submits it, and records success.
 - Used Selenium with ChromeDriver for browser automatio and bypassing Cloudflare authentication.
 - Parsed problem data and editorial content using BeautifulSoup and API calls via Requests, integrating everything into a single automated pipeline.
